

**COURSE CODE BSE2023–Software Testing**

**LECTURER: Dr. Anthony Ugochukwu Nwosu**

**ASSIGNMENTS 2**

**Assignment 2:**

Submission Type: Group (2-5)

Weight: 40%

Due Date: 10 March,2026

**Instructions**

1. Each group prepare a written report (8–10 pages) and a presentation (10–15 minutes).
2. Submit both report and slides through Google Classroom before the deadline.
3. Include group member names and student IDs on the first page.
4. Plagiarism and ChatGPT generates answer will result in zero marks.
5. Font: Times New Roman, Size 12, 1.5 spacing
6. References must follow APA 7th edition (minimum 5 references).

**Task Description**

1. Evaluate three common **software quality metrics** and explain how each helps improve testing effectiveness.
2. Discuss about Agile testing methodology and narrate how **Agile and DevOps** environments influence software testing processes

3. You are working as a software tester in software development company. Choose two modules (e.g., user registration, payment processing). Design at least four (4) detailed test cases for one functionality within each module. **Your test cases must be presented in a standard table format and must include at least one positive or one negative**
4. You are part of a Quality Assurance (QA) team testing a new online shopping web application with key features including:
- User registration and login
  - Adding products to a shopping cart
- a) Identify and explain **two (2)** possible security threats related to this application Making payments using debit/credit cards
- b) Identify **automation testing tools** suitable for testing
- c) write security test case using the format below:

| Test Case<br>ID | Test<br>Scenario | Steps to<br>Execute | Expected<br>Result | Actual<br>Result | Status |
|-----------------|------------------|---------------------|--------------------|------------------|--------|
|                 |                  |                     |                    |                  |        |

5. Write a short reflection (200–300 words) on team collaboration

#### Assessment Criteria

- Problem Solving – 20%
- Design and demonstration – 30%
- Report and presentation quality – 30%
- Reflection and teamwork – 20%

**Best of Luck**
